

Aryan Sinha

Computer Science Undergraduate

ABOUT ME

I like figuring out how systems break, and then building something that doesn't. That curiosity is what pulled me into cybersecurity and AI in the first place, and it's carried through two hackathon projects, a cybersecurity specialization, and a lot of late nights debugging things that seemed fine an hour earlier. I'm still early in my journey, but I care about actually understanding what I build, not just shipping it.

SKILLS

- Python
- C++
- Java
- JavaScript
- SQL
- Bash
- Linux
- Cryptography
- AI / Multi-Agent Systems
- Data Structures & Algorithms
- Network Security

EDUCATION

2023

ST. JOHN'S ENGLISH SCHOOL & JUNIOR COLLEGE

Class X (CBSE) — 94.2%

2025

ST. JOHN'S ENGLISH SCHOOL & JUNIOR COLLEGE

Class XII (CBSE) — 92.6%

2025 - 2029

SHIV NADAR UNIVERSITY CHENNAI

B.Tech in Computer Science & Engineering

Cybersecurity Specialization

2025 - 2027

INDIAN INSTITUTE OF TECHNOLOGY MADRAS

Foundation Degree in Data Science & Applications

PROJECTS

RIVAL LENS — Competitive Intelligence

SNUC Hacks — Finalist | 2026

- Led end-to-end development across frontend, backend, AI integration, authentication, database management, and data collection.
- Built automated scraping pipelines for live and SNU-specific competitive intelligence.
- Developed AI processing to turn collected information into actionable insights.

FINMATE AI — Multi-Agent Finance

FinBehaviour Hackathon — Final Round Qualifier | 2026

- Designed the multi-agent AI architecture centered on John, a master financial coach coordinating specialized agents.
- Developed the frontend and integrated backend AI APIs connecting the UI with the multi-agent system.
- Implemented transaction categorization, financial-health analysis, goal management, and budget monitoring.

CERTIFICATIONS & ACHIEVEMENTS

Palo Alto Networks Cybersecurity Professional Certificate

Coursera | 2026

Google AI Professional Certificate

Coursera | 2026

SNUC Hacks

Finalist | 2026

FinBehaviour Hackathon

Final Round Qualifier | 2026
